Dear Amy

   I am thrilled to apply for the available backend web developer positions. With two years of experience in the field, I am confident that my skills and experience make me an excellent fit for many web developer positions.

In my previous work experience at Hyundai E-commerce and LG Telecommunications, I have gained valuable expertise in various technical skills. I am proficient in RDB SQL, Spring, SpringBoot, , MyBatis, and JPA and basic frontend skills such as HTML, CSS, and JavaScript, jQuery, Bootstrap. Additionally, I also have experience with MSA architecture and Apache Kafka.

My previous work has instilled in me the importance of collaboration, communication, and attention to detail when developing and implementing complex web applications. I have a keen eye for detail and am constantly striving for excellence in every project I undertake. My experience with Agile development methodologies has also helped me develop a flexible and adaptable approach to problem-solving.

As a backend web developer, I am committed to continuing my professional development and staying up-to-date with the latest technologies and programming languages. I am confident that my skills and experience make me a valuable addition to the team I work in.

Thank you for considering my application. I look forward to hearing from you.

Sincerely,

Seheon Kim
